

## **CaseWorX Release Notes**

Version: 3.5.0.116

Release Date: December 17, 2021

### Enhancement:

- **Number of Substances Tested in Drug Screen Sessions** - New field in Drug Screen Sessions widget to mirror the number of substances tested field in the Participant Drug Screen widget

### Fixes:

- **Individual Sessions Treatment Time Field** - fixes a bug that was preventing the user from saving treatment minutes accurately
- **Court Calendar Error Message** - fixes a bug that was preventing users from being able to run the standard court calendar
- **Drug Screen Session Add Participant Bug** - fixes a bug that was preventing users from adding participants to a drug screen session when they had to navigate to the second page of the participant list to add participants
- **Session Timeout Timer** - fixes a bug that was preventing the session timeout timer from displaying, resulting in users getting errors when the system had timed out without them knowing.
